

Hosting agreement

Party A:

Party B: Thehedgecoingroup.com., Ltd.

Overview:

This agreement is for the hosting (management and operations) of Party A's cryptocurrency mining unit(s) by Party B.

1. The Hosting service

1.1 The hosting service undertaken by Party A includes the following:

- 1.1.1 Operations and management of units specified in Appendix A
- 1.1.2 Transport to the mining location
- 1.1.3 Electrical setup
- 1.1.4 IT technical setup
- 1.1.5 Connection to mining pool
- 1.1.6 Basic maintenance and repair of the mining hardware (only for simple and/or common problems, such as electrical wiring issues etc, billed at cost for parts + labor)
- 1.1.7 Assurance of mining payout related to Party A's unit(s) in accordance to the terms and conditions listed in section 7
- 1.1.8 Basic operation and maintenance of the mining environment to ensure safe and secure hardware housing
- 1.1.9 Backup hosting solution in the event of an uncontrollable disruption, such as a natural disaster, electrical shortage, etc
- 1.1.10 Return of the unit to Party A upon request and within the terms and conditions listed in section 8

1.2 The Hosting service undertaken by Party A does not include the following:

- 1.2.1 Guaranteed payout levels
- 1.2.2 Warrantees or other assurances on Party A's hardware
- 1.2.3 Unrestricted site visitation access (visitation may be arranged on a per-case basis)

2. Fees

2.1 Fees

- 2.1.1 Party A agrees to pay (\$x.xxUSD) per kwh of electricity consumed during the hosting period.
- 2.1.2 Party A agrees to pay one month of electricity as a security deposit.
- 2.1.3 Party A agrees to pay one months of electricity in advance.
- 2.1.4 Electricity payments are due on the 15th of the month prior to the end of a payment period.
- 2.1.5 If Party A does not purchase the mining equipment from Party B, Party A will pay (15USD)/ machine as a set up fee. Set up fee is waived if Party A purchases mining equipment from Party B.

3. Payment method

- 3.1.1 The following payment methods are acceptable

- 3.1.1.1 Cryptocurrency payments

- 3.1.1.2 CNY bank transfers

- 3.1.2 Cryptocurrency and bank transfer information can be found on Appendix B

4. Failure to pay

- 4.1.1 In the event the Party A fails to pay Party B, then Party B has the right to disconnect Party A's mining unit until payment is made. If no payment is made, then Party B can choose to send Party A's unit back at Party A's expense.
- 4.1.2 If no payment is made after 14 days of being late, Party A loses his security deposit.
- 4.1.3 Party B will reconnect Party A's unit after payment is made
 - 4.1.3.1 Reconnection fee of 300 RMB (45USD) per miner will be charged in the next billing cycle.

5. Maintenance, repair and operations

- 5.1 Party B will maintain a clean mining environment at temperatures as close as feasible to optimum for the units
- 5.2 Party B will have security personnel, IT personnel and electrical personnel on hand to ensure proper mine operation and maintenance
- 5.3 In the event that Party A's unit ceases to work due to a hardware problem, then Party B will do its best to maintain and repair it.
 - 5.3.1 Expenses for the repair will be billed at cost of labor and expenses
 - 5.3.2 Repairs will be completed within 5 days
 - 5.3.3 If the repair cannot be fixed within 5 days, then Party B has the option to send the unit back to Party A at Party A's expense or as per discussion with Party A.
 - 5.3.4 Party B may offer Party A the option to send the unit for repair to the factory, IF the unit was purchased by Party B AND it is within the warranty period. Shipping is paid by Party A. If the machine is out of the warranty period, Party A bears all repair costs.
 - 5.3.4.1 The deposit would be returned if the malfunction is clearly the fault of Party B's operation.
 - 5.3.4.2 The deposit would not be returned if the malfunction is not related to Party B's operation.

6. Hosting period

- 6.1 The period from the signing of the contract and continuing for 24 months is considered the Hosting Period.
- 6.2 Party B will connect the unit within 5 business days of receiving the machines at the farm and receipt of deposit.

7. Mining and payout

- 7.1 The Mining pool is the responsibility of Party A and Party A will provide to Party B the login username and password so Party B can connect the miners to Party A's pool.

8. Termination of this contract and return of mining hardware to Party A

- 8.1 This contract will automatically terminate at the end of the 24-month period unless extended in writing
- 8.2 The mining hardware will be returned upon termination of the contract
- 8.3 The deposit will be returned less costs to return to equipment to Party A upon termination of the contract
- 8.4 This contract can be terminated at any time and the equipment returned, if Party A requests such including its mining hardware to be returned by submitting a formal equipment return request.
 - 8.4.1 Party A can have the equipment returned without loss of deposit if the Equipment Return request is made 3-5 business days in advance of the requested return date.
